

2023 Excellence in Concrete Awards

Categories

Decorative Concrete

Pavement <3,000 CY (intersections, streets, trails, and parking areas)

Infrastructure (other than pavement)

Mid and High-Rise Buildings (>3 floors)

Low-Rise Buildings (\leq 3 floors)

Agricultural Projects

Concrete: Is there anything it can't do?

Send us your most unique uses of concrete

Concrete's been used in some unique ways from concrete canoes to concrete toboggans

What else have you or your customers built with concrete?

May be a completely new item "invented" by the producer or their customer

It is NOT required that the new use be offered or sold commercially

Judging Criteria

Aesthetics – to what extent the design of the project appeals to the customer and the public

Craftsmanship – the detail and precision taken in the installation

Functionality – the degree to which the project provides the solution for which it was intended

Creativity – the uniqueness of how the project fulfills its functional purpose

Safety – the extent to which the contractor minimized lost time accidents on the project

Minimum of 3 high-res photos and maximum of 6 photos are required for each entry

5" x 7" at 300 dpi

Highest res possible is to the advantage of the applicant

Winners

ARM's annual directory will feature the winners in each category

Awards will be presented during the 2024 Summer Breeze – July 31, 2024 at Madden's Resort

Ceremony to be formatted to recognize the designer and the owner

Two winners will be selected in each category

- Projects supplied by producers with <15 plants
- Projects supplied by producers with \geq 15 plants

NOTE:

If there are fewer than three entries in any category, that category will not be judged or awarded.

Please provide the following information, along with a minimum of 3 high-resolution photos (maximum of 6 photos)

Ready mix producer company name (must be an ARM member):

Ready mix company representative:
